REPORT OF SCHOOL BOARD, OF TOWN OF WARREN,

For the year ending March 1, 1890.

---

Schools have been sustained, the past year, as follows ;

School No. 2 Village Grammar and Primary

“ “ 3 East Warren

“ “ 6 Swain Hill

“ “ 7 Warren Summit

“ “ 8 Ore Hill

Scholars in No. 1, Clough attended school in Wentworth, at an expense for tuition to Warren, of Ten Dollars, those in No. 4, Beech Hill, went to the village school, at an expense for carrying, of Eighteen Dollars ; those in No. 5, Batchelder, to village and Ore Hill, without expense to the board ; those of No. 9, Foot, to village and East Warren, without expense, and those of No. 10, Breezy Point, to East Warren, at an expense for carrying, of Twenty-five Dollars ; Six scholars from Penton, attended school at Warren Summit, for whose tuition, the sum of Thirty Dollars was received.

The following names constitute the Roll of Honor, indicating those who have perfect attendance, during the year. Wayland Batchelder, D. K. Little, George A. French Mabelle Houghton.

Text books on History and Physiology, for which the town voted Twenty-five Dollars, were placed in the schools, and have been used with a good degree of interest, in some, while in others, teachers did not appear prepared to make the study of Physiology of much use.

The primary department of the village school, under the efficient management of Miss Wheel, exhibited most satisfactory results. The final examination in

Arithmetic, Geography, Physiology and Spelling, showed special thoroughness. The six terms spent by Miss Wheel with this school, have been very profitable to these beginners in study.

In the Grammar School, the labors of Mrs. Richardson, in the spring term, would have been more profitable, had the discipline been more firm, in the first part of the term. There was clearly, an improvement in this respect, after the first two weeks, and if the term had not been cut short by the illness of the teacher. I am satisfied that the final examination would have shown good progress in the branches of study pursued. In the fall and winter terms, under the tuition of Miss McDaniel, one was struck with the self-reliance of the scholar in recitation, they seemed able to "go alone" in their work, showing the work of an able and faithful teacher;

The Ore Hill school, Miss Alice V. Pillsbury, teacher, made very marked progress in the Elementary branches. The most nearly perfect recitation, which I ever heard from scholars of their age 11 to 14 was the review of the First Book in Physiology, given by George French, Nettie Merrill and Mabelle Houghton, at the close of the spring term of school; Miss Pillsbury is peculiarly "apt to teach," and is most successful in awaking in her pupils, an enthusiasm akin to her own.

The primary school room at the village is clearly unfit for use for a school of that size, the room is too small; there is really no fit place for recitation, the seats are uncomfortably small, and the room is very cold. The expenditure of a comparatively small sum, would make a great improvement in the condition of the house.

Number 3, School at East Warren had two terms, both taught by Miss Sarah K. Page of Dover, N. H.

Miss Page well maintained her reputation for a faithful and energetic teacher. The attendance was good throughout both terms, the school made marked improvement in its general deportment as well as in the branches taught; Blackboard work by the pupils was an interesting feature in the studies of Arithmetic, Geography and analysis and of a quality not easily excelled; The school was a profitable one and received the commendation of parents and School Board.

The Summit school had two terms; The first term of ten weeks taught by Mrs. Mary L. Little an experienced teacher; Mrs. Little was a faithful worker and her scholars made good improvement.

The second term twelve weeks was taught by Miss Evelyn A. Wells of Franconia, N. H., who well maintained the good reputation of the school; both terms were a success. The school-house needs some small repairs which we hope to see done before the next term commences. The Swain Hill school one term of thirteen weeks, was taught by Mr. Henry L. Cotton. The number attending was small and could they be convened with some other school it would be a benefit to all concerned. Mr. Cotton was painstaking with his pupils, and the school made good advancement.

Length of all the schools, in weeks, during the year, 141. Whole number of scholars attending not less than two weeks, including six from Benton, 139.
